Publication Information

Clearly identify the report, data set, or other document that contains the information you want the Department to correct.

DOT Agency: FMCSA  
Publication/Report Title: Safer Report  
Publication/Report Title: 11/4/02

How did you receive the information? If found on a website, please indicate the URL

[www.safersys.org](http://www.safersys.org)

Describe how the information in question affects you (i.e., how an alleged error harms you, and/or how the correction will benefit you).

My niece was burned to death on her way to my house. I am an insurance agent in Nashville, TN that has specialized in writing trucking firms for over 10 years. There is a pending lawsuit against KLLM for the horrible accident dated August 8, 2000. The trial begins December 10, 2002.

For some unknown reason, this accident was recorded under the wrong authority. Please move immediately from Vernon Farms DOT #911223 to KLLM DOT #154237. I have tried unsuccessfully to get this information corrected - PLEASE CORRECT NOW. You can call the police dept, KLLM, Vernon Sawyers Farms (if still active company) and the driver of the unit - they will all tell you KLLM authority in a Vernon Sawyer truck which is a division of KLLM - Vernon Sawyers Farms is not one of their companies.

THANKS!!

Clearly identify the specific information that you believe needs correction.  
crash report shown on the wrong trucking firm

Specify, in detail, why you believe the information fails to meet standards of integrity, utility, and objectivity.  
fatality showing on the record motor carrier.

Specify your recommendations for what corrections DOT should make to the information in question and reasons for believing that these recommended corrections would make the information consistent with both the DOT's and OMB's information quality guidelines.

As requested numerous times with Tennessee - correct the reports where someone made a bad error when recorded.

In a case where the Department has not designated a report, data set, or document as being subject to these information quality guidelines, and you

believe it should be, you should specify why the information should be subject to the guidelines; and include any documentary evidence you believe is relevant to your request (e.g., comparable data or research results on the same topic). call anyone involved in this accident to get the truth or you can call me or my sister.
